Student ID: **619952**

Lab 1

Question 1

User Action	System Response
User types in PIN into main screen	System checks validity of PIN and presents options to user on another screen
User selects Withdraw option	System displays a screen prompting the user to enter the withdrawal amount
User enters the withdrawal amount	System verifies sufficient funds in the account and prompts the user to confirm the amount
User confirms the withdrawal amount	System dispenses the requested cash and print receipt
User takes cash and receipt	System displays a transaction completion message and returns to the main screen
